JossCarter.YourWorstNightmare

"Joss is one of the most talented movement specialists I am yet to work with. His body possesses a vast range of movement, he's a brilliant actor, and he has an ability to absorb direction to a depth that takes a role to whole other level."
- Charlie Mayhew, Movement Director

K5 STUDIO

For nearly 10 years Joss has been co-owner, co-coordinator, co-producer, co-programmer of this non-commercial, independent, self sufficient & collaboratively shared live/work studio space located within the thriving artistic and communal gates of the warehouse district in Manor House, London. The humble yet equipped 8mx8m studio space has been created to be an open, safe, respectful & sacred environment where artists can thrive in a unconventional, unique, independent not-for-profit creative sanctuary is removed from the conformity and reliability of the average studio, organisation and funding grant.

Over the 14 years of its existence Joss, along with his current and past housemates own independent projects, have invited & welcomed thousands of artists, participants, professionals and communities from all over the world into their home with unconditional trust offering classes, workshops, affordable space for hire, space in kind, residencies, funding and production support, employment plus many other experiences, opportunities and engagements for commercial & non-commercial use. Joss is very open to discussing your own private/public events or production developments you may need. Your collaboration and engagement with K5 Studio has 100% direct support and impact to its residents personal and professional lives, artists all over the world and most importantly the local communities who protect us from threat of, eviction and demolition by gentrification and our landlords lack of understanding or appreciation of our vital and unique asset to the arts and humanity. www.joss Carter.co.uk/k5studio

"K5 has played a crucial role in meeting both my professional and personal needs, directly contributing to my projects success. ...It must be supported & protected at all costs through artist, public, educational & communal collaboration!"
